

**Linda Schieb, MSPH**

**Epidemiologist, Division for Heart Disease and Stroke Prevention, CDC**

Linda Schieb is an epidemiologist working in the Division for Heart Disease and Stroke Prevention in the National Center for Chronic Disease Prevention and Health Promotion. Since 2006, she has been a member of the Small Area Analysis Team, where she has explored social and environmental risk factors for cardiovascular disease, documented geographic disparities, and led the development of the *Interactive Atlas of Heart Disease and Stroke*. She received her MSPH in epidemiology from Emory University.
